

# WINE FANDANGO

## SPRING MENU 2021

.....

In this menu we offer our most fandangolicious culinary vision. Tasty recipes, honest preparations and attractive presentations to share the sensations of La Rioja with an international outlook. A delicious approach, consisting of recipes that combine market cuisine with modern trends from here and there, converging in a proposition that is full of complicity and savouriness. We want to turn your food experience into a space and a time to disconnect, relax and enjoy. You are in good hands, immersed in the pleasant atmosphere of an elegantly welcoming place to meet.

Let yourself go! Wine Fandango will do the rest.

**WELCOME!**
